A Taste for the Good Life

A Groundbreaking Approach to Memory Care

Finding the right residence for a loved one who needs Memory Care can be challenging. That's why we created a safe, positive environment with specially trained associates who provide all the assistance residents need plus a sense of joy and family. Our approach focuses on what residents can do and never what they cannot. Led by our *Nayas* – caregivers named after the ancient Sanskrit word for "person of wisdom" – Memory Care includes dedicated dining, integrative wellness programs, and curated opportunities to meet individual needs.
